**YOUR HEALTH IS OUR
COMMITMENT.**

STAY AHEAD.

ABOUT CRUSO HEALTH

Cruso Health focuses on newly arising challenges in the global healthcare environment: preventing worldwide epidemics and supporting the global healthcare system — by developing digital solutions and by promoting and manufacturing healthcare, laboratory and personal protection products.

OUR 3 PILLARS

CRUSO HEALTH

Cruso Health is built on three pillars: Personal Protection Equipment, Healthcare and Digital Solutions.

Our goal is to do our part in providing professionals with a safe environment and the necessary equipment to get the job done properly - without risking their own health and wellbeing.

QUALITY

AT OUR CORE

Having our roots in Switzerland, quality and timeliness is at the core of everything we do. Each of our production facilities gets audited regularly by precise quality inspectors who put the needs of our customers first. In addition to these consistent audits, each of our shipments gets inspected and tested before it leaves the production facility - to guarantee the product's properties.

We believe that our products should reflect the respect our customers expect and deserve.

OUR CORE PRINCIPLES

Collaboration

We work closely with local communities and governments to develop products that meet local market needs. We strongly believe that 1+1 is greater than 2.

Social Impact

We aim for our products and solutions to have a positive impact on the world: from ethical sourcing of raw materials, to the working conditions of our employees, and beyond.

Innovation

We are investing significant effort into increasing the quality of our products and introducing state-of-the-art technologies at our local production facilities.

PERSONAL PROTECTION EQUIPMENT

CRUSO HEALTH

DISPOSABLE PROTECTIVE MASKS

Our quality hygienic mask for everyday wear.

Features

- > Blue Color
- > 3 Layers
- > Non-Woven Fabric
- > With Non-Latex Ear Loops
- > Adjustable Nose Bridge
- > 2 Years Shelf Life
- > 50 Masks per Pack

Article Ref.	Certifications	Color	Pack Contents	Shipping Unit	GTIN
CH-10101	GB/T 32610-2016	Blue	50 pcs.	40 packs / ctn.	7649995026034

Description

Our disposable protection masks are intended for use in non-medical environments: when at work, at home or outside. The masks are composed of three layers: an inner layer made of non-woven fabric, a middle filtering layer made of meltblown fabric and an outer layer also made of non-woven fabric. The masks filter out dust and bacteria, block internal and external droplets and are intended for a single use only. The adjustable flexible nosepiece and the soft elastic ear loops ensure a proper fit. Please note, masks are effective only when used in combination with frequent hand-cleaning with alcohol-based hand rub or soap and water.

Only proper use and disposal can reduce the risk of contagion but not eliminate it completely.

DISPOSABLE MEDICAL MASKS

Our medical mask for healthcare professionals.

Features

- > Bacterial Filtration Efficiency $\geq 95\%$
- > Blue Color
- > 3 Layers
- > Non-Woven Fabric
- > With Non-Latex Ear Loops
- > Adjustable Nose Bridge
- > 2 Years Shelf Life
- > 50 Masks per Pack

Article Ref.	Certifications	Color	Pack Contents	Shipping Unit	GTIN
CH-10401	CE EN14683 Type I, FDA	Blue	50 pcs.	40 packs / ctn.	7649995026041
CH-10402	CE EN14683 Type IR, FDA	Blue	50 pcs.	40 packs / ctn.	7649995026065

Description

Our disposable medical masks are intended for general use in a healthcare setting, particularly in low-fluid cases. The masks are composed of three layers: an inner layer made of non-woven fabric, a middle filtering layer made of meltblown fabric and an outer layer also made of non-woven fabric. The masks filter out particles and bacteria, block internal and external droplets and are intended for a single use only. The adjustable flexible nosepiece and the soft elastic ear loops ensure a proper fit.

Only proper use and disposal can reduce the risk of contagion but will not eliminate it completely.

DISPOSABLE PROCEDURE MASKS

Our highest protection procedure mask.

Features

- > Bacterial Filtration Efficiency $\geq 98\%$
- > Blue Color
- > 3 Layers
- > Non-Woven Fabric
- > With Non-Latex Ear Loops
- > Adjustable Nose Bridge
- > 2 Years Shelf Life
- > 50 Masks per Pack

CH-10503	FDA (FXX - Surgical Mask)	Blue	50 pcs.	40 packs / ctn.	7649995026089

Description

Our disposable procedure masks are intended for use in a healthcare setting outside of the operating room. The masks are composed of three layers: an inner layer made of nonwoven fabric, a middle filtering layer made of meltblown fabric and an outer layer also made of non-woven fabric. The masks filter out particles and bacteria, block internal and external droplets and are intended for single use only. The adjustable flexible nosepiece and the soft elastic ear loops ensure a proper fit.

Only proper use and disposal can reduce the risk of contagion but will not eliminate it completely.

KN95 PARTICULATE RESPIRATOR MASKS

Everyday respiratory protection for everyone.

Features

- > Nonwoven Spunbond and Meltblown Material
- > Filtration Efficiency $\geq 95\%$
- > Protection for Dust and Non-Liquid Particles of Fluid
- > Ultrasonic Seam
- > Adjustable Nose Wire
- > Triple Seam Elastic (Latex)
- > Antiallergic, Air Permeable
- > Does Not Contain Latex or Fiberglass
- > Single Use
- > 20 Masks per Pack

Article Ref.	Certifications	Color	Pack Contents	Shipping Unit	GTIN

Usable in Healthcare Setting with Emergency Use Authorization

Description

Our disposable flat folding particulate respirator masks are intended for use in nonmedical environments: when at work, at home or outside. The disposable respirator masks filter out most of the dust and bacteria, block internal and external droplets and are intended for single use only. The adjustable flexible nosepiece and the soft elastic ear loops ensure a proper and comfortable fit. Please note, these respirators are effective only when used in combination with frequent hand-cleaning with alcohol-based hand rub or soap and water.

Only proper use and disposal can reduce the risk of contagion, but not eliminate it completely.

FFP2 NR PARTICULATE RESPIRATOR MASKS

Our universal FFP2 respirators for everyday life.

Features

- › Nonwoven Spunbond and Meltblown Material
- › Filtration Efficiency $\geq 95\%$
- › Protection for Dust and Non-Liquid Particles of Fluid
- › Ultrasonic Seam
- › Adjustable Nose Wire
- › Triple Seam Elastic (Latex)
- › Antiallergic, Air Permeable
- › Does Not Contain Latex or Fiberglass
- › Single Use
- › 20 Masks per Pack

Description

Our disposable cup-shaped FFP2 particulate respirator masks are intended for use in nonmedical environments: at work, at home or outside. Our respirators have been fully certified according to European standards. FFP2 respirators filter out most of the dust and bacteria, block internal and external droplets and are intended for single use only. The adjustable flexible nosepiece and the soft elastic headbands ensure a proper and comfortable fit. Please note, these respirators are effective only when used in combination with frequent hand-cleaning with alcohol-based hand rub or soap and water.

Only proper use and disposal can reduce the risk of contagion, but not eliminate it completely.

FFP3 NR PARTICULATE RESPIRATOR MASKS

Our universal FFP3 respirators for everyday use.

Features

- > Nonwoven Spunbond and Meltblown Material
- > Filtration Efficiency $\geq 98\%$
- > Protection for Dust and Non-Liquid Particles of Fluid
- > Ultrasonic Seam
- > Adjustable Nose Wire
- > Triple Seam Elastic (Latex)
- > Antiallergic, Air Permeable

CH-10701	CE EN 149:2001	White	20 pcs.	20 packs / ctn.	7649995026119

Description

Our disposable duckbill FFP3 particulate respirator masks are perfectly suited for use in non-medical environments such as when at work, at home or outside. The products have been fully certified according to European standards. The FFP3 disposable respirator masks filter out nearly all the dust and bacteria, block internal and external droplets and are intended for single use only. The adjustable internal nosepiece and the soft elastic headbands ensure a tight and comfortable fit. Please note, these respirators are effective only when used in combination with frequent hand-cleaning with alcohol-based hand rub or soap and water.

Proper use and disposal can reduce the risk of contagion, but not eliminate it completely.

N95 CUP-SHAPED PARTICULATE RESPIRATOR MASKS

Universal N95 cup-shaped respirators for everyday life.

Features

- > Nonwoven Spunbond and Meltblown Material
- > Filtration Efficiency \geq 95%
- > Protection for Dust and Non-Liquid Particles of Fluid
- > Ultrasonic Seam
- > Adjustable Nose Wire
- > Triple Seam Elastic (Latex)
- > Does Not Contain Latex or Fiberglass
- > Single Use

CH-10601	NIOSH TC-84A-4336	White	20 pcs.	20 packs / ctn.	7649995026126

Description

Our disposable cup-shaped N95 particulate respirator masks are made to be used in nonmedical environments: various indoor public facilities, at home or outside. They have been fully certified according to United States standards and approved by NIOSH. The disposable respirator masks filter out most of the dust and bacteria, block internal and external droplets to protect the wearer and other people. The masks are single use only and should be disposed properly after using. The adjustable flexible nosepiece inside of the mask and the soft elastic headbands ensure a proper and comfortable fit. Please note, these respirators are effective only when used in combination with frequent handcleaning with alcohol-based hand rub or soap and water.

Proper use and disposal can reduce the risk of contagion, but not eliminate it completely.

N95 DUCKBILL PARTICULATE RESPIRATOR

Universal N95 respirators for everyday life.

Features

- > Nonwoven Spunbond and Meltblown Material
- > Filtration Efficiency $\geq 95\%$
- > Protection for Dust and Non-Liquid Particles of Fluid
- > Ultrasonic Seam
- > Adjustable Nose Wire
- > Triple Seam Elastic (Latex)
- > Does Not Contain Latex or Fiberglass
- > Single Use
- > 20 Masks per Pack
